HAIR CONCEPT

About us

Rose & Wild is more than just a hair salon it is a feel good location. A go to happy place for not only the clients but for the artists and colorists that work here also. We want everyone to feel so comfortable that it almost feels like home. We not only focus on expert hair colouring, design and consultation but the whole environment of the boutique has been specifically designed to help encourage the feel good factor.

Throughout the space we have lots of soft furnishings, cushions, plants and have a strong pastel colour theme. Specifically the colour Rose features quite frequently in our logo, instagram, illustrations and furnishings. Pink is known to evoke a youthful nostalgia which helps to encourage happy connotations for our team and clients. The Rose & Wild space makes for the perfect setting for all round 5 star salon experience.

THE EXPERIENCE

5 rated google salon*

FEEL GOOD LOCATION

The Rose & Wild experience does not just start when you step through the door. It is a unique journey that begins when you visit us online and then enquire to make an appointment. We really believe in making the customer experience as personal as possible so the information we gather and the information we share before we meet you is just as important as that of our first face to face meeting. We know each and every one of our clients are individual so we aim to get to know you on a deeper level. This allows us to tailor your experience. Everything from the music we play, the refreshments we serve and the artists you are coupled up with are prescribed in a way to ensure every need is met. So you can sit back and relax in the knowledge that we are always thinking one step ahead to fulfill your needs.

If you would like to receive a new in depth consultation please let us know.

GO TO HAPPY PLACE

All of our artists have been handpicked not only because of their expertise, knowledge and skill but most importantly for their want to provide unparalleled service. They all have one major thing in common and it is that they care. They care about the hair they do and they care about others. This is notable in the 5* star personal reviews they receive and the fact that our average rebook rate is second to none. The want and need to care does not just end once the appointment is finished. All of us at Rose & Wild pay special attention to keep in contact with those that visit us. We offer help with hair management suggestions once you have left us and can offer hair care advice whilst you are at home. The Rose & Wild experience is a feel good energy that stays with you way after you have left the building. Rose & Wild is so unique, there really is nowhere quite like it.

DAISY

-This is honestly the best hairdresser I have ever been to. Living in London, I was always looking for the cheapest place to get my hair cut and coloured and would never go to the same place twice. Rose and Wild was just down the road from where I live and I was lured by the beautiful interior design the salon boasts. Rachael (my hairdresser) took time to sit down with me and ask about what I wanted from my hair - obviously for it to be long thick and mermaid like, what else? What I never expected was that after years of TERRIBLE treatment, my hair has recovered and taken on a new life. It is finally growing, and growing with considerable thickness and that is because Rachael took the time to tell me what I needed to get to my goal and executed this incredibly. Yes, the salon is not cheap but oh my goodness is it worth every penny. You really can't put a price on good hair, when it can entirely transform your demeanor and confidence. A truly brilliant gem in the heart of Fulham.

TRACEY

It's a belated review, but one I definitely wanted to share! The salon is stunning and everyone is so lovely and friendly. What can I say about Hannah - well, there's nothing she doesn't know about blond hair - my natural tone will never allow it to be ice-white, but Hannah has gotten it to be the closest it has ever been. Plus, she's fabulous to talk to and time just passes when you're engrossed in the conversation. The overall experience was so great that I am now moving from my current salon (which is literally outside my door) to Rose & Wild - but what's an additional 15 minute bus trip for awesome hair? 'Im so happy to have stumbled across Rose & Wild and will not be booking my hair appointments elsewhere from now on! Extremely professional and knowledgeable staff and a really lovey salon with a friendly and comfortable setting! Big shout out to Samuel who has managed to transform my hair colour and really listen to what I was looking & hoping for.

Hannah did my hair and she was fantastic - she really listened to what I wanted and what I didn't want! I usually hate getting my hair coloured... but my experience here was so brilliant that I left with a smile (and great hair!) Highly recommend Rose & Wild - I will be back!

A Gorgeous environment, everyone who works there is lovely. Emilie was professional and clearly knows her stuff - very talented & skilled! There was clarity given before on what I would be paying for and the results are definitely worth the extra pennies spent.

Went in to get my dull, fading balayage lightened up and I'm so happy I decided to choose this salon! I saw James who is a true artist. He listens and really understood the type of blonde I was looking to achieve and did such an amazing job. I'm so happy I've found somebody I can trust with my hair in london now! I was sceptical, as I , but he did an amazing job and you're paying for the high quality at the end of the day. Thank you so much
